End Application:

Canopy rotary actuator for f-16

Gear Type:

Spur all gears

Special Features:

T.O. Is 8c1-4-4-3, figure 10-1; name in t.O. Is no-back assembly, manual drive; nha p/n is 315e100-3/5 (cage 72162); this assembly includes mechanical drive housings, ring gears, idler gears, coupling shaft assembly, clutch plate, clutch holding plate, couplings, shims, spacers, bearings, washers, springs and all other miscellaneous hardware required for a complete assembly; all parts for the assemble are listed in t.O. 8c1-4-4-3; approximate length is 2 to 3 inches and approximate diameter is 3-4 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
