Body Material:

Steel

Bore Diameter:

3.250 inches

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

Fork type (clevis)

Mounting Type And Location:

Fork cylinder head end

Special Features:

With eighteen inch stroke

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
