Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-275-2525>

Body Material:

Steel

Bore Diameter:

4.000 inches

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

Fork type (clevis)

Mounting Type And Location:

Fork cylinder head end

Special Features:

With nine inch stroke

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
