Width:

1.9725 inches

Overall Length:

3.500 inches

Bolt Hole Quantity:

3

End Application:

Used on hydraulic motor for the f-16 acft

Bore Inside Diameter:

0.6475 inches

Bolt Hole Size:

1/2 inch diameter

Special Features:

Shaft hole is splined with 12 teeth, pressure angle is 30 deg., shaft holes in center of tri shaped bracket; center to center distance between bolt holes: 1-63/64 inch between centers

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524a0
