End Application:

Used on hyd. Mech.Actuator on thef-16c/d acft

Special Features:

Matl may be bar stock; all surfaces finish; 8.785 in. Lg., bevel gear mounting distance 0.495 in.; bevel gear end data, 22 teeth, pressure angle 22.5 deg, pitch diameter 2.2000, mating p/n 2047877-1, no. Of mating teeth 22; second end is splined, 15 teeth, pressure angle 30 deg, minor diameter 0.8471, second end diameter 0.9720 in., 0.380 in. Lg., second spline 2.615 in. In from second end has 22 teeth, pressure angle 30 deg, minor diameter 1.031 in. Dia, 5.675 in. Lg; bevel end has hole drilled 0.860 in. Dia, 6.470 in. Lg, second end has hole drilled 0.500 in. Dia, 1.270 in. Lg

Shelf Life:
