**Major Diameter:**

1.500 inches

**Spline Quantity:**

28

**End Application:**

F110-ge-400

**Minor Diameter:**

1.355 inches

**Bore Type:**

Splined

**Center To Center Distance Between Link And Shaft Holes:**

3.590 inches

**Link End Thickness:**

0.830 inches

**Distance Between Fork Inside Spread:**

Between 0.498 inches and 0.502 inches

**Material:**

Steel

**Style Designator:**

Clevis link end, securing hol (s) shaft end

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A524p0
