Fabrication Method:

Compressed

Major Diameter:

54.0 millimeters

Thickness:

2.4 millimeters

Strengthening Feature:

Internally molded-in reinforcement

Minor Diameter:

24.0 millimeters

Friction Lining Material:

Cork and rubber, synthetic

Lining Style:

Clutch disk

Application Type:

Dry

Attachment Method:

Bonded

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A230a0
