Overall Diameter:

114.0 millimeters

First End Hole Diameter:

68.0 millimeters

Second End Hole Diameter:

68.0 millimeters

First End Thickness At Mounting Holes:

30.0 millimeters

Second End Thickness At Mounting Holes:

30.0 millimeters

Compressed Length:

770.0 millimeters

Extended Length:

1140.0 millimeters

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

Tongue type

Piston Rod End Similarity:

Not identical

Second Piston Rod End Style:

Tongue type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
