First End Style:

Plain

End Similarity:

Not identical

Overall Length:

Between 17.760 inches and 17.840 inches

End Application:

Pacer dawn

Step Quantity:

6

Largest Step Diameter:

2.240 inches

Special Features:

U32 deg. Bevel, first end; radius 0.040-0.060, 6 places; 2.000-12un-3a threaded area, 2 places; second end has a perpendicular hole 0.670-0.710 in. Deep with 0.500-13unc threads 0.630-0.710 deep with center located 0.960-1.040 from end

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
