First End Style:

Plain

End Similarity:

Not identical

Second End Style:

Cross drilled hole and internally threaded

Overall Length:

5.8700 inches

End Application:

2320-01-354-4528

First End Diameter:

1.2500 inches

Second End Diameter:

1.2500 inches

Second End Hole Diameter:

0.2500 inches

Second End Distance From Hole Center To End:

3.1800 inches

Second End Internal Thread Length:

0.3120 inches

Special Features:

Second end is countersunk, 0.30 in deep; 0.88 in diameter

Material:

Steel comp 1045

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
