Body Material:

Steel

Tempurature Rating:

180.0 degrees fahrenheit

Bore Diameter:

0.320 inches

Overall Diameter:

0.750 inches

Compressed Length:

12.625 inches

Extended Length:

19.625 inches

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

Piston Rod End Similarity:

Identical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
