Body Material:

Steel

Bore Diameter:

2.875 inches

Body Outside Diameter:

4.000 inches

Seat Angle In Deg:

37.0

Compressed Length:

15.250 inches

Extended Length:

23.500 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Double acting single cylinder

Port Location And Quantity:

1 piston rod end

Port Style:

Flare

Port Thread Series Designator:

Npt

Port Pipe Thread Size:

0.375 inches

Special Features:

Capaci type 30 tons pushing, 5 tons pulling

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
