First End Style:

Plain

End Similarity:

Not identical

Second End Style:

Circular grooved and externally threaded

Second End Groove Width:

3.0 millimeters

Second End Groove Diameter:

10.4 millimeters

Overall Length:

80.0 millimeters

End Application:

2320-01-360-1898

First End Diameter:

20.0 millimeters

Second End Distance From End To Groove:

16.0 millimeters

Second End Diameter:

12.0 millimeters

Second End External Thread Length:

16.0 millimeters

Step Quantity:

3

Largest Step Diameter:

20.0 millimeters

Special Features:

Threads 1.5-6g

Material:

Steel comp 1045

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
