**Body Material:**

Aluminum

**Body Outside Diameter:**

2.500 inches

**End Application:**

Propulsion systems

**Compressed Length:**

30.000 inches

**Integral Valve Operation Method:**

Hydraulic

**Design Characteristics:**

Double acting single cylinder

**Special Features:**

Port side location

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A34200
