**First End Style:**

Externally threaded and woodruff keyway

**End Similarity:**

Not identical

**Second End Style:**

Two cross drilled holes

**Overall Length:**

5.780 inches

**End Application:**

Aircraft, northrop corp, model b-2

**First End Keyway Width:**

0.0620 inches

**First End External Keyway Length:**

0.250 inches

**First End Distance From Keyway Center To End:**

1.000 inches

**First End Diameter:**

0.3750 inches

**First End External Thread Length:**

0.750 inches

**Second End Diameter:**

1.0000 inches

**Second End Hole Diameter:**

0.1900 inches

**Second End Distance From Hole Center To End:**

0.710 inches

**Second End Distance Between Hole Centers:**

5.070 inches

**Second End Angle Between Holes:**

120.0 degrees

**Step Quantity:**

2

**Largest Step Diameter:**

1.000 inches

**Special Features:**

Second end has internal keyway, holes are .190-24 unc-2b thru

**Material:**

Steel comp 303

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23200
