First End Style:

Externally threaded and woodruff keyway

End Similarity:

Not identical

Second End Style:

Two cross drilled holes

Overall Length:

5.780 inches

End Application:

Aircraft, northrop corp, model b-2

First End Keyway Width:

0.0620 inches

First End External Keyway Length:

0.250 inches

First End Distance From Keyway Center To End:

1.000 inches

First End Diameter:

0.3750 inches

First End External Thread Length:

0.750 inches

Second End Diameter:

1.0000 inches

Second End Hole Diameter:

0.1900 inches

Second End Distance From Hole Center To End:

0.710 inches

Second End Distance Between Hole Centers:

5.070 inches

Second End Angle Between Holes:

120.0 degrees

Step Quantity:

2

Largest Step Diameter:

1.000 inches

Special Features:

Second end has internal keyway, holes are .190-24 unc-2b thru

Material:

Steel comp 303

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
