**Cross Sectional Shape:**

Convex face

**Joint Style:**

Vertical/diagonal joint

**End Application:**

P/n 508647030 assembly oil distribution box used onboard 225 ft wlb c g vessels

**Oil Passage Type And Quantity:**

1 groove top

**Special Features:**

Bearing rod type w is made out of a ring machined cut to a 45 degree angle for the rod dia.; rod dia. 2.750 ins.; rod bore dia. 2.772 ins.; groove dia. 3.006 ins.; material is turcite 46

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A08400
