Cross Sectional Shape:

Convex face

Joint Style:

Vertical/diagonal joint

End Application:

P/n 508647030 assembly oil distribution box used onboard 225 ft wlb c g vessels

Oil Passage Type And Quantity:

1 groove top

Special Features:

Bearing rod type w is made out of a ring machined cut to a 45 degree angle for the rod dia.; rod dia. 2.750 ins.; rod bore dia. 2.772 ins.; groove dia. 3.006 ins.; material is turcite 46

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A08400
