End Application:

C-17 aircraft

Body Construction:

Solid

Special Features:

Drive assembly, torque tube aft door main landing gear; splined with 35 teeth; 8/16 pitch; pressure angle 30 deg; 4 grease fittings p/n ms15001-3 and 1 fitting p/n ms15001-1; approximate length 28 in.; width at widest point is 4.375; tail number effective type 17ac01-003; 17a004-022

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A52410
