First End Outside Diameter:

10.0 millimeters

Second End Outside Diameter:

10.0 millimeters

Body Outside Diameter:

22.0 millimeters

Compressed Length:

170.0 millimeters

Extended Length:

235.0 millimeters

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

Piston Rod End Similarity:

Identical

Special Features:

Ball sockets both ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
