First End Style:

Unthreaded cross drilled

End Similarity:

Identical

End Application:

Weapons system ja, nimitz class cvn 72 & 73

First End Hole Diameter:

0.2500 inches

Special Features:

Cold drawn steel tube; 2 required for elevator platform assembly

Material:

Steel

Material Specification:

Aisi-c-1018 assn standard single material response and qq-t-830 (1018) federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
