Body Material:

Steel

Bore Diameter:

2.000 inches

End Application:

3895-01-344-5480

Compressed Length:

21.000 inches

Extended Length:

33.000 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

Port Location And Quantity:

1 piston rod end

Port Style:

Plain

Port Thread Series Designator:

Nptf

Port Pipe Thread Size:

0.250 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
