Major Diameter:

0.195 inches

Overall Width:

0.834 inches

Serration Quantity:

21

End Application:

Aircraft, airlifter c-17a

Minor Diameter:

0.161 inches

Bore Type:

Serrated

Features Provided:

Counterbore

Shaft Securing Method:

Serrations

Special Features:

Offset height: 0.065 in.

Material:

Aluminum alloy

Material Specification:

Qq-a-225/9, alloy 7075, t7351 federal specification single material response

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524p0
