**Overall Length:**

5.150 inches

**Body Width:**

0.750 inches

**Body Thickness:**

0.125 inches

**End Application:**

Weapons system nimitz class cvn

**Link Style:**

Straight

**Body Construction:**

Solid

**Special Features:**

Includes three 0.125 in. Diameter holes located at 1.200 in., 1.700 in., and 2.200 in. From one end center to center hole distance; used in plastics processor safety cover assembly

**Material (non-core):**

Aluminum alloy, 6061, t6, aluminum association standard

**Material:**

Aluminum

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A524I0
