First End Style:

Circular grooved and externally threaded

First End Groove Width:

0.1250 inches

First End Groove Diameter:

0.8120 inches

End Similarity:

Not identical

End Application:

Strategic sealift conversion class

First End Distance From End To Groove:

1.0620 inches

First End Diameter:

0.6250 inches

First End External Thread Length:

0.9370 inches

Largest Step Diameter:

1.625 inches

Special Features:

Keyway on body 3/8 x0.207 in.

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
