First End Style:

Plain

End Similarity:

Not identical

Second End Style:

Flat grooved

Overall Length:

78.0 millimeters

End Application:

W/s strategic sealift conversion ships class

First End Diameter:

35.0 millimeters

Second End Distance From End To Flat:

5.5 millimeters

Second End Diameter:

35.0 millimeters

Second End Grooved Flat Length:

6.5 millimeters

Second End Grooved Flat Depth:

7.0 millimeters

Special Features:

Two lubricating holes

Material:

Steel comp 1035

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
