First End Style:

Flat keyways and internally threaded

End Similarity:

Identical

Overall Length:

6.5 millimeters

End Application:

Strategic sealift conversion ships class

First End Keyway Width:

28.0 millimeters

First End External Keyway Length:

15.0 millimeters

First End Keyway Depth:

10.0 millimeters

First End Diameter:

95.0 millimeters

First End Internal Thread Length:

25.0 millimeters

Step Quantity:

5

Largest Step Diameter:

105.0 millimeters

Special Features:

Includes keys and all hardware items

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
