Center To Center Distance Between Link And Shaft Holes:

5.600 inches

Shaft End Thickness:

0.920 inches

Link End Thickness:

Between 0.330 inches and 0.350 inches

Material:

Aluminum alloy

Material Specification:

Qq-a-367, comp 2014, t6 federal specification single material response

Style Designator:

One hole tongue link end, securing hole shaft end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524p0
