Overall Length:

26.380 inches

End Application:

Navy weapons code jg, seawolf class ssn

Special Features:

Zpiston rod for 200cu.In. Hydraulic accumulator; largest diameter of rod end that attaches to piston 1.489"; end of rod that is outside the cylinder is 0.812" diameter with a 0.500-13 unc-2b 0.75" full threads deep axially centered hole

Material:

Stainless steel

General Description:

Material per mil-c-24111 type 1; nha - p/n 6405547

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
