Material Thickness:

2.520 inches

End Application:

F/a-18 hornet, c-2a reprocurd aircraft.

Pivot Pin Hole Diameter:

0.188 inches

Length From Pivot Pinhole Centerline To Point Of Engagement:

1.065 inches

Special Features:

Surface finish: passivated; depth from pivot pinhole centerline to point of engagement: 0.408 in.Nom; weapon system essential.

Material:

Steel

Style Designator:

Two holes, pivot opposite lower hook, angled arm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524q0
