Body Material:

Steel, stainless

First End Outside Diameter:

0.250 inches

Mounting Provision:

Pin

Mounting Facility Length:

0.340 inches

Bore Diameter:

0.880 inches

End Application:

Vehicle, aircraft refueler r-14

First End External Thread Length:

0.500 inches

Compressed Length:

10.310 inches

Extended Length:

11.090 inches

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Single acting single cylinder

First Piston Rod End Style:

External threaded

First Piston Rod End Thread Series Designator:

Unf

First Piston Rod End Thread Diameter:

0.250 inches

First Piston Rod End Thready Qty Per Inch (tpi):

28

First Piston Rod End Thread Class:

2a

First Piston Rod End Thread Direction:

Right-hand

Mounting Facility Diameter:

0.250 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
