End Application:

An/sqq-32

Cam Width:

Between 0.495 inches and 0.505 inches

Specific Use:

Cam switch no. 2 & 3 rudder drive

Features Provided:

Right hand

Special Features:

0.125 in. Surface finish; less than 2.0 magnetic permeability after machining

Material:

Steel comp 304

Material Specification:

Qq-s-766 military specification single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35 military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A50800

Mil-std (military Standard):

spec.
