Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3040-01-474-6425

Body Material:
Steel
Integral Valve Operation Method:
Hydraulic
Design Characteristics:
Single acting single cylinder
Special Features:
Viton seals; hydrostatic test pressure: 4500 psi; metal port and vent plugs; special taper cushions; total cylinder weight equals 49 lbs.
Hydraulic cylinder is 2h series & style "f/h" mounting. It's bore size is 1.50, a rod diameter of 5/8, a stroke of 82.000 and cushions at both
ends
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A34200
