## NSN 3040-01-475-0328

Shouldered Shaft - Page 1 of 1

Overall Length: 2.760 inches

View Online at https://aerobasegroup.com/nsn/3040-01-475-0328

End Application:
Nssn class submarine
Step Quantity:
1
Product Name:
Quill shaft
Special Features:
Material is stainless steel; this part of weapons handling athwartship drive gearbox sub assembly; protect this surface prior to assembly;
angular relationship of spline 1 teeth may vary freely, as a unit, to spline 2 teeth; remove all burrs and sharp edges, and where machined
corner or fillet radii are not dimensioned015 redius shall be used
Material:
Steel
Material Specification:
Astm-a564 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
A23200
