**Overall Length:**

2.760 inches

**End Application:**

Nssn class submarine

**Step Quantity:**

1

**Product Name:**

Quill shaft

**Special Features:**

Material is stainless steel; this part of weapons handling athwartship drive gearbox sub assembly; protect this surface prior to assembly; angular relationship of spline 1 teeth may vary freely, as a unit, to spline 2 teeth; remove all burrs and sharp edges, and where machined corner or fillet radii are not dimensioned. .015 radius shall be used

**Material:**

Steel

**Material Specification:**

Astm-a564 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23200
