Overall Length:

2.887 inches

Body Thickness:

0.357 inches

Link Style:

Straight

Body Construction:

Solid

End Attachment Hole Diameter:

0.378 inches both ends

End Attachment Length:

1.444 inches both ends

End Attachment Width:

0.357 inches both ends

Product Name:

Arm

Special Features:

125 microinch surface finish; 0.760 in. width; 45 deg. 0.450 in. Chamfer on both sides of mounting holes

Material:

Copper alloy

Material Specification:

Qq-b-637 alloy 464 1/2h federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A52410
