First End Style:

Plain

End Similarity:

Identical

Overall Length:

6.750 inches

End Application:

Aircraft carrier cvan 68

First End Diameter:

1.1250 inches

Special Features:

4 holes to be drilled and reamed at time of assembly part of ballistic flight deck hatch for arresting gear barrier webbing stowage

Material:

Steel comp 1018

Material Specification:

Aisi-c-1018 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23200
