First End Style:

Plain

End Similarity:

Identical

Overall Length:

11.375 inches

End Application:

Aircraft carrier cvan 68

First End Diameter:

1.1250 inches

Special Features:

2 holes at one end to be drilled and reamed at time of assembly. 1.750 in long keyway near center of shaft. Part of ballistic flight deck hatch for arresting gear barrier webbing stowage

Material:

Steel comp 1018

Material Specification:

Aisi-c-1018 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
