Overall Length:

5.1825 inches

Overall Width:

2.6875 inches

End Application:

Ballistic door; aircraft carrier cvan 68

Mounting Method:

Drilled hole

Product Name:

Actuating lever

Fulcrum Bore Size:

1.003 inches

Special Features:

Inside to opp hand (for r.H. Door)

Material:

Steel

Material Specification:

Aisi c-1020, normalized assn standard single material response or aisi c-1018, normalized assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524v0
