**End Application:**

F100-pw-100/200 eng

**Criticality Code Justification:**

Feat

**Product Name:**

Actuator, ball screw, secondary, convergent nozzle

**Special Features:**

Primary actuator is p/n 4086389; unit contains lubricant that should not be exposed to temp in excess of 400 degrees f-it may induce toxic gases

**Reference Number Differentiating Characteristics:**

As differintiated by part number

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A30500
