End Application:

F100-pw-100/200 eng

Criticality Code Justification:

Feat

Product Name:

Actuator, ball screw, secondary, convergent nozzle

Special Features:

Primary actuator is p/n 4086389; unit contains lubricant that should not be exposed to temp in excess of 400 degrees f-it may induce toxic gases

Reference Number Differentiating Characteristics:

As differintiated by part number

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30500
