Overall Length:

12.000 inches

Body Width:

Between 0.610 inches and 0.640 inches

Body Thickness:

0.500 inches

End Application:

ARMO-RE-DRE-CONN

Link Style:

Clevis ends

Body Construction:

Solid

Product Name:

Leg installation device

Special Features:

Material is steel, carbon per astm a36 or optional steel, carbon 1008 through 1018 per astm a575 or a108; attachment ends have slots cut 0.900 in. Along the length and 0.280 in. Along the width. Attachment hole diameter is 0.252 in. Both ends through 2 walls; connecting link coated with zinc-nickle coat, type ii class 2 or optional zinc coat, type ii, 0.3 mils thick .

Material:

Steel

Surface Treatment:

Zinc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A52410
