Overall Length:

19.9375 inches

Body Width:

1.5000 inches

Body Thickness:

0.3750 inches

End Application:

Door wtqa; marine hardware and hull doors

Body Construction:

Solid

Product Name:

Connecting rod rh handle side

Special Features:

4holes drilled .499-.500" diameter with 3/4" diameter x 90 degrees csk-one side only. 1st end: 1r hole 3/4" to c, 2nd hole 3 9/16"c-c. 2nd end: 1 r hole 3/4" to c, 2nd hole 4 7/8"c-c (or 5 5/8" from end). 3 crescent cut outs in link to approx 1/2" depth 2 r -all same side of bar.

Material:

Steel

Material Specification:

Astm a108, gr 1018 assn standard single material response

Surface Treatment:

Zinc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0
