Overall Length:

4.688 inches

Body Diameter:

1.500 inches

Body Thickness:

0.500 inches

End Application:

Doors wt quick acting; w/s marine hardware and hull doors

Link Style:

Straight

Body Construction:

Solid

Product Name:

Lever dog

Material:

Stainless steel

Material Specification:

Astm a276 assn standard single material response and qq s763 type 316, cond a federal specification single material response

Surface Treatment:

Zinc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0
