Overall Length:

2.000 inches

Body Width:

1.000 inches

Body Thickness:

0.125 inches

End Application:

Aircraft carrier, cvn74

Link Style:

Straight

Body Construction:

Solid

Product Name:

Keeper

Special Features:

1.000 in. Effective length. Part of aircraft carrier elevator door locking mechanism

Material:

Steel

Material Specification:

Qq-s-698, gr-c federal specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A52410
