Overall Length:

0.6250 inches

Body Width:

2.0000 inches

Body Thickness:

0.1250 inches

End Application:

Aircraft elevator doors for aircraft carrier cvn 74

Link Style:

Straight

Body Construction:

Solid

Special Features:

Two 0.4062 diameter holes drilled 0.3750 inches on center from each end centered

Material:

Steel

Material Specification:

Qq-s-698, cl-hrcq aly-1008, 1018, or 1020, grc federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0
