Overall Length:

3.5500 inches

Overall Height:

0.7500 inches

Overall Width:

1.7500 inches

End Application:

Apu fire door actuator assembly p/n 5750039-001 used on lcac

Accessory Components And Quantity:

One each, cam p/n 5750038-049, arm p/n 5750038-021, boss p/n 5750038-019, nut p/n 21044c7 nsn

Product Name:

Bellcrank assembly

Special Features:

Cam, arm, and boss are welded together in accordance with drawing

Material:

Stainless steel

General Description:

Arm specification qq-s-766, material 316l cres; boss specification qq-s-763, material 316l cres; cam specification qq-s-766, material 316l cres cond a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
