First End Style:

Cross drilled and externally threaded

End Similarity:

Identical

Overall Length:

32.5420 inches

End Application:

Engine intallation dolly

First End Diameter:

Between 0.4880 inches and 0.4930 inches

First End External Thread Length:

0.5000 inches

Step Quantity:

3

Product Name:

Screw assembly-adapter, engine/removal/trans

Special Features:

Assembly consists of shaft/screw p/n 74d295018-1003 and bearing p/n 9m769-1

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
