**End Application:**

Aircraft carrier cvn 74

**Accessory Components And Quantity:**

One each, 122-6818602 pc 5, which includes table number 501 and 502 welded together to make the lever arm; 122-6818602 pc 62 shaft 1 inch dia

**Product Name:**

Arm and shaft assembly

**Special Features:**

Shaft and lever arm are welded at assembly after installation of linkage.

**Functional Description:**

Part of hanger divion doors locking mechanism

**Material:**

Steel

**General Description:**

Shaft 6.1875 in long x 1.000 in dia, key way cut in shaft 3.000 in long, hole drilled at assembly for cotter pin; lever arm 4.250 in long, first end 1.000 in wide x 0.250 in thick with 0.563 in hole drilled 0.500 in on center from end, second end 1.500in diameter x 0.625 in thick

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
