End Application:

Aircraft carrier cvn 74

Accessory Components And Quantity:

One each, 122-6818602 pc 5, which includes table number 501 and 502 welded together to make the lever arm; 122-6818602 pc 62 shaft 1 inch dia

Product Name:

Arm and shaft assembly

Special Features:

Shaft and lever arm are welded at assembly after installation of linkage.

Functional Description:

Part of hanger divion doors locking mechanism

Material:

Steel

General Description:

Shaft 6.1875 in long x 1.000 in dia, key way cut in shaft 3.000 in long, hole drilled at assembly for cotter pin; lever arm 4.250 in long, first end 1.000 in wide x 0.250 in thick with 0.563 in hole drilled 0.500 in on center from end, second end 1.500in diameter x 0.625 in thick

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
